UL/CSA LISTED SUPPORTS & ENCLOSURES

GARD-N-POST™

Arlington's **Gard-N-Posts™** are the attractive, safe and easy way to install light fixtures and devices outdoors!

We offer a variety of styles, from 9" to 73" tall that function as supports or enclosures – or both!

Made of non-metallic, heavy-duty plastic, our damage-resistant Gard-N-Post holds up against abuse from lawn maintenance equipment.

Most have built-in stabilizers that deliver rigid support and require no assembly. The angle-cut at the bottom allows for easy access to underground wires (Not applicable to GPD9 deck/post mount style or the GPLN15GR low profile support.)

Plus, the colorant runs throughout the post, so there's no chipping or loss of color.

For added convenience, **GP19**, **GP26** and **GP37**, our most popular sizes, come with a supplied separator so you can install power and low voltage outlets in the same post.

Some styles come with a metal grounding bushing in place, ready for the installation of an NPT fixture. And some have KOs that make them UL Listed enclosures.

**Whatever your need,
there's a Gard-N-Post to fit!**

OUR TALLEST SUPPORT FOR MOST OUTDOOR LIGHT FIXTURES

GP37 37"

Optional

GPX18 18" Extender

Our tallest Gard-N-Post supports most outdoor light fixtures, and/or a GFCI wiring device.

- Adaptable in the field for time clocks and disconnects
- Openings on both sides of the post and the low voltage separator (supplied) allow for low voltage on one side, power on the other.
- Built-in stabilizers
- Two 1/2" KOs for a UL Listed enclosure
- Non-chipping colors
- UV rated plastic

Add the GPX18 (optional) to extend the GP37 in 18" increments, up to 73" tall. Or cut the top of the extender to the desired height.

GP37

Our tallest 2-piece Gard-N-Post assemblies with PVC cement

Extend the height of GP37 up to 73"

SUPPORT POST WITH PAGODA LIGHT FIXTURE

GPBK28 28"

GPBK35 35"

- Perfect for decks, boat docks and concrete walkways
- Square pagoda-style light fixture matches the Gard-N-Post's shape
- Standard lamp socket in the fixture accommodates a variety of lamp types
- Back-to-back openings in the post, and the low-voltage separator give you the option of installing power in one side, and low-voltage in the other or high voltage devices in both
- Two combination KO plates provide a UL Listed enclosure
- Non chipping colors: black, bronze
- Low cost bollard in two sizes!
- Easy installation—includes everything you need to install it, except anchor bolts and caulking

1 Attaches easily to surface

2 The non-metallic Gard-N-Post slides over the metal support post as shown at right.

Both posts are held firmly in place with the supplied screws (see above).

3 Place decorative curb over Gard-N-Post. Slide it down to cover the installation.

4 Press fit spacer to base of lamp.

5 Install pagoda light to post with locknut inside the top of the post. Wire fixture.

Recommended anchors (not included): Concrete: (4) 3/8" x 2-1/2" Tapcons®
Cast-in-place concrete: (4) 3/8" anchor bolts • Wood deck: (4) 3/8" anchor bolts w/ nuts & washers

JUST FOR 2- AND 3-WIRE LIGHT FIXTURES • LOW COST

GPLN19 19.5"

GPL19 19.5"

GPLN15GR 15"

Installing a 2- or 3-wire outdoor light fixture is easier, and less expensive with Arlington's low cost Gard-N-Posts.

The GPLN series low profile support is designed for 3-wire light fixtures. It comes with a 3/4" NPT threaded opening, and an installed 3/4 x 1/2 non-metallic reducing bushing for use with 1/2" or 3/4" NPT fixtures.

- Installed cover
- Permanent colors – No chipping
- Heavy-duty – Resists damage from lawn mowers and other lawn maintenance equipment
- UV rated plastic for long outdoor life
- UL and CSA Listed
